Add a **MINOR** to tackle **CLIMATE CHANGE**

Find out how you can enhance your degree with a **minor** in Climate Change and Society!

In the Climate Change and Society minor you will:

- Discover how global change will affect our professional and personal lives
- Take internships and electives that match your academic and career interests
- Develop important skills in critical thinking about global issues and learn to distinguish fact from fiction
- Examine how societies are adapting to address these challenges
- Learn how to become part of the solution to our global challenges!

The Climate Change and Society minor can be added to any undergraduate major.

For information on how to add the minor, contact the minor advisors:
Katie Hughes, khughes@arizona.edu
Shannon Scott, sms8@arizona.edu
