**DCC YEAR END DEPT ROLLOVER**

An Annual DCC electronic rollover process has been created to End/Extend existing DCC's. By default all DCC's will end on June 30th of every year. All DCC's must be renewed to avoid interruption of access to services. The new rollover process will require action from both the sponsoring department and the DCC.

The departments will initiate a roll over list by navigating as follows:

- UAccess Employee
  - Manager Self Service
    - MSS Online Forms
    - People
      - DCC Year End Dept. Rollover

Enter the sponsoring department ID to create a list of DCC's that are sponsored by the department.

**Example #1 - DCC has NETID**

New Expiration dates can be entered for individuals with existing “NETIDs” who are continuing their DCC relationship (not to exceed 6/30 of the following fiscal year).

- This will trigger an email message to the DCCs with instructions for verifying their continuing relationship with the UA, and/or accepting DCC Agreements (if applicable).
Example #2 – DCC has Personal Email Address – No NETID
Messages are sent to individuals with “Personal Email Addresses” in UAccess Employee but, who have not established a "NETID."

- The email notice provides instructions for establishing a NETID (see Establishing NETIDs section below).
- Once created, the NETID is loaded into UAccess Employee approximately every 15-minutes—the will change the "New Expiration Date" option to an updateable field on the DCC Year-End Rollover page the next time it is accessed.

Example #3 – DCC has NO NETID or Personal Email Address
Specific details and instructions will be provided in next documentation release.

APPROVING/DENYING REQUESTS

HOW TO APPROVE CAMPUS COLLEAGUE REQUESTS

Campus Colleague requests pending approval can either be accessed through the “pagelet” or the “Manage Campus Colleague” page or the “Manage DCC Extend/End Request” page. The option to approve a request will only appear if the user has both the appropriate approval role and is the next step in the approval chain.

1. APPROVING THE CAMPUS COLLEAGUE REQUEST

To approve a Campus Colleague request
- Click on the “Approve” button

2. CONFIRMING APPROVED REQUEST

Once the Campus Colleague request is approved, a confirmation page displays the information from the previous page in view only mode. The “green box” in the process monitor (the rectangular boxes on the bottom of the page) shows that the first approval step has been satisfied.

1. Click on the “Exit” button to return to the search menu.
3. ADDING AD HOC APPROVERS AND REVIEWERS

Ad hoc approvers and reviewers can be added by HR Department, College Reviewers and College Approvers at any step following an approval step in the chain. For example, the HR Department can add an ad hoc approver or reviewer after the College Reviewer or College Approver steps. Note: the Ad hoc “Approver” will stop the routing flow until the user takes action—the Ad hoc “Reviewer” notifies the user of the transaction and does not require approval.

To add an ad hoc approver or reviewer:

1. Click on the + sign to the right of the approval step the ad hoc step will follow.
   - Do NOT add an AHDOC APPROVER after the Systems Control Step. Systems Control is the final step in the workflow and will deny requests that include an adhoc APPROVER after their step. **Users may however add adhoc REVIEWER’s after systems control step if needed.

2. This will activate the “Insert additional approver or reviewer” window.
   - Type in the user id for the ad hoc approver or reviewer
     - See Approver/Reviewer Search below if the user id is unknown
     - Click on either the “Approver” or the “Reviewer” radio button
     - Click on the “Insert” button

   Note: the User ID must be typed in Caps

Do NOT add APPROVERS after Systems Control Step
3. Approver Reviewer Search

The spy glass in the “Insert additional approver or review” window will activate the “Approver/Reviewer Search” option (see previous section)

1. Type the user’s name or user ID
2. Click on the “Search” button
   A list of users meeting the search criteria will appear
3. Select the ad hoc approver or reviewer by clicking on the individual’s name or user id.

The “Insert additional approver or reviewer” window will reappear

4. Click on either the “Approver” or the “Reviewer” radio button
5. Click on the “Insert” button

![Approver/Reviewer Search](image)

The option to deny a request appears if the user has both the appropriate approval role and is the next step in the approval chain.

To deny a request

1. Type the reason for denial in the comments section
2. Click on the “Deny” button

1. CAMPUS COLLEAGUE DENY CONFIRMATION

1. Click on the “Exit” button to return to the search menu
HOW TO RETURN TO SAVED - CAMPUS COLLEAGUE REQUESTS

Initiators have the ability to return to saved Campus Colleague requests by accessing the specific employee in the “Campus Colleague Requests” page. A new radio button will appear with description “Return to Work in Progress”. The user has the option to select a saved request for cloning up to 30 days after it was initially saved.

To return to a saved Campus Colleague request:
1. Select the “Return to Work in Progress” radio button

Note: This action moves the transaction to the next page—to complete the form.

HOW TO WITHDRAW - CAMPUS COLLEAGUE REQUESTS

Initiators have the ability to withdraw Campus Colleague requests by accessing the specific transaction in the “Manage Campus Colleague” page for new DCC’s or the “Manage DCC Extend/End Request” page for modified DCC requests. Withdrawing the request essentially cancels the request from all pending approvers. Initiators may withdraw a request up until final approval. These requests are stored for 30 days and may be cloned to create a new request.

How to withdraw a request:
1. Search for the request in the “Manage Campus Colleague” or the “Manage DCC Extend/End Request” page.
2. Once transaction is selected and opened click the “Withdraw” button.
VIEWING PENDING REQUESTS

Pending approval requests are available for viewing in two formats:

- Pagelets
- Manage Campus Colleague Requests – New DCC Requests
- Manage DCC Extend/End Request – Modified Existing DCC Requests

1. HOW APPROVERS KNOW DOCUMENTS ARE PENDING THEIR APPROVAL

The UAccess Employee main page automatically displays a “pagelet” summary listing the transactions pending the individual approver’s action.

- The “pagelet” provides a “transaction” link directly to the transactions requiring the user’s approval.
- Each transaction type displays a total count of transactions available for approval.
- Selecting the "home" key on the first tab on the upper right side of any page will return the user to the MSS Approval Summary Pagelet.

Note: if a transaction type link is not available, this means no requests are available for approval at this time.

- Once a user selects a transaction type from the MSS Approval Summary they are directed to the individual transaction pagelet.
- Additional details for each transaction are made available to allow for selection of the transaction to work next.

Remember to Refresh!
2. HOW INITIATORS KNOW WHEN DOCUMENTS ARE APPROVED, DENIED OR PENDING

The “Manage Campus Colleague” and “Manage DCC Extend/End Request” pages allow users with the UAccess Employee Position Cross-Reference or the DCC Create role to view Campus Colleague requests that are approved, denied, pending or withdrawn.

The Search dialog box provides multiple options for accessing Campus Colleague transactions.

1. Enter the Initiator NetID or other criteria listed in the Search dialog box
2. Click on the “Search” button
   A list of values that meet the search criteria will be displayed
3. Click on any of the values listed to access specific transactions
   1. The user’s role and current approval step will determine whether the record is view only or available for change or approval.
SCENARIOS – WORKFLOW PATHS

The following examples describe the workflow paths a user may encounter when initiating or approving a document.

SELF APPROVAL

Initiator with HR Dept, College Reviewer or College approval role(s)
- The step for the specific approval role automatically self approves when the request is submitted.

Please see the example below:
HR Department Approver initiating a request

AUTO APPROVAL

Approver listed on multiple steps in path(s)
- Multiple paths for the same approver are automatically approved on all steps.

Please see the example below:
College/Division approving a request in which they are listed in multiple steps.
COLLEGE INITIATES A REQUEST

College initiates a request
- The HR Department Approvers are notified of the change via email.
- The request will automatically route to Systems Control upon submission.

Please see the example below:

SKIPPED STEPS

The system skips steps if it does not find approvers
- Steps are skipped if no one is assigned to an approval role
- At least one "HR Dept/College" approver is required for the path

Please see the example below:

NO APPROVERS FOUND

Transactions routed to an Error Step if no approvers assigned
- All steps are skipped if no approvers are assigned
- A Systems Control Approver will troubleshoot the transaction

Please see the example below:
ERROR/WARNING MESSAGES

The following examples describe the error or warning messages a user may encounter when initiating or approving documents.

ANOTHER APPROVER HAS TAKEN ACTION

A single step may have multiple approvers

- More than one approver can simultaneously review a transaction; however, only ONE can take action.

The following error message indicates another approver has already completed the step.

REQUEST IS ALREADY PENDING

Only one request to extend/end a relationship can be pending for a DCC at a time. The following error message indicates another request is pending approval. The transaction # is listed so users can look up the transaction in “Manage DCC Extend/End Request” and find who initiated. The initiator can withdraw if needed.
