IDENTIFYING AND ADDRESSING ECOLOGICAL RESEARCH AND OUTREACH NEEDS IN THE SOUTHWESTERN US

SPEAKER: Elise Gornish

Coop. Extension Specialist in Ecological Restoration, SNRE, UA

DATE: Wednesday, November 29th, 2017

TIME: 3:00-4:00 pm

LOCATION: ENR2, S107

ABSTRACT: This talk will explore the relationships between stakeholder needs in the arid southwest and active research objectives. Several examples of research projects focusing on how approaches from ecological restoration can provide utility for (1) weed control, and (2) achieving multiple management goals in working landscapes will be described.
