Qualifying Meeting
SNRE Graduate Student Learning Outcomes Assessment

Purpose of this evaluation form: This evaluation is conducted in compliance with the UA mandate on Outcome Assessment for graduate programs. Aggregate data from these evaluations are used by the program as a tool to guide the development of our curriculum and teaching objectives, and to monitor the learning success of our students.

Instructions: Please do not feel compelled to provide only the highest marks. Your scores noted on this form do not affect the student's grades or their official record in any way. Your evaluation and scores will only be used by SNRE after aggregation with data about other students. Please evaluate how well the student meets your expectations ***relative to their particular stage in the graduate program.***

Please evaluate the student on each criterion with a score between 1 and 5. You may provide a brief comment on the rationale of your score. Please submit your completed scoring sheet to the School Director.

Date	Student Name	Committee Member

Scoring:
1: Needs improvement 2: Fair 3: Average 4: Good 5: Excellent

Demonstrate a strong foundation for conducting research, including:

	1	2	3	4	5
understand the principles of modern empirical science	○	○	○	○	○
advanced knowledge of natural sciences, especially biology and ecology	○	○	○	○	○
skills in quantitative analysis, especially inferential statistics and research design	○	○	○	○	○
knowledge of current, cutting-edge research in an area of research specialization	○	○	○	○	○
ability to integrate theory and empirical data in an area of research specialization	○	○	○	○	○
